

SMART Board 6000S series

IN A LEAGUE OF ITS OWN

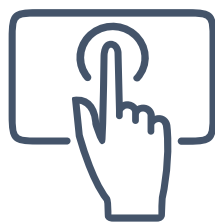

65" | 75" | 86"

Android 11
embedded computing

Our one-of-a-kind powerhouse display delivers unmatched value when it comes to ease of use and student engagement.

World-leading touch technology for Interaction and collaboration

Only SMART displays support full multi-user interactivity for true ease of use, across platforms and applications. Every user can write, touch, and - uniquely - erase at the same time without interfering with another user's interactions.

The SMART 6000S series, with **patented Tool Explorer™ technology**, puts your students in the driver's seat of their learning with more differentiated pens than any other display, and exclusive learning tools. With Pen ID for their own pen type and color, students can collaborate without fighting over tools.

up to **40** continuous touch points:

Write, touch, gesture, erase

Pen, touch AND eraser differentiation

Palm reject - writing and non-writing hand

Up to 6 pens* with fine erase & Pen ID

Eraser blocks - with azimuth erasing

Automatic color recognition
